Did you know that Teachers experience voice related problems at a rate of over twice that of the general population?

Make this the year you think about your voice and its effects on you and others in the classroom.

Your voice is your tool of vocation, keep it healthy.

Presenter: Anna Kovacs Speech Pathologist

Duration: 2 hours

Target Population: suitable for teachers and aides.

Description of Presentation:
This presentation will cover the basics of Vocal Hygiene. It will provide participants with:
